

Express Loan is getting an upgrade to make your appraisal ordering experience smoother, faster, and a whole lot more intuitive.

### **Meet Reggora, our new appraisal management system interface!**

Starting now, when you place a new appraisal order through Express Loan, you'll be automatically routed to Reggora. It's modern, clean, and built to make the ordering process feel effortless.

Don't worry, we're keeping things simple:

- **New appraisal orders** will be routed to Reggora
- **Loans already in process with an appraisal ordered** will continue to be routed to our previous system, Mercury, so your workflow stays consistent and uninterrupted.

This update gives you a refreshed look and a more streamlined workflow without changing the steps you're used to. Just order as you normally would, and Express Loan will guide you to the right place.

We hope you enjoy the new experience — and as always, we're here if you have any questions!
